Pronouns: she/her

Summary: Support manager with nine years in subscription box and consumer electronics companies. Colleagues use Lena. I run support by the numbers and keep the team close.

Capability	Evidence	Years
Customer contact	Escalations, chat, phone	9
Helpdesk tooling	Triggers, SLAs, bot flows	6
Team leadership	14 agents, hiring, one-to-ones	5
Metrics	Dashboards, forecasting, quality scores	6
Process	Help center, playbooks, root cause reviews	5

Experience

Customer Support Manager, Fernhill Boxes, 2020 to present
Manage 14 agents. I coach in weekly one-to-ones and review three recorded contacts per agent each month; six agents got a raise or a promotion, and turnover is 15 percent.
I handle the tough escalations about missed deliveries and billing disputes, and I stay calm on the phone; my escalated cases score 90 percent satisfaction.
I own the helpdesk setup: triggers, service level timers, a bot for order status and views for each queue. I wrote the rules in one quarter and trained the team.
I forecast volume from sales campaigns and build the schedule, and I publish a weekly scorecard with first response, resolution time, quality and satisfaction. First response went from 6 hours to 90 minutes.
I run monthly root cause reviews and wrote playbooks for the 15 most common issues, but the help center is owned by the content team and I only contribute drafts.

Senior Agent, Gadgetry Direct, 2015 to 2020
Handled escalations and trained new agents.

Education
BComm Marketing, Lakeshore University, 2015
